FRUITS and FLOWERS for Your Pleasure and Profit

RED GIANT

NEW Sweet PLUM

A BLUE RIBBON WINNER!

Most beautiful plum we have ever seen! Roundish oblong in shape, it measures 2½ to 3 inches long, and over 2 inches wide. The fruit is borne in clusters of seven to twelve on the ends of branches and ripens evenly. It colors to deep maroon-red, overspread with a glowing pinkish bloom.

FLAVOR UNSURPASSED!

The flesh of Red Giant is greenish gold, of very firm and fine texture. Flavor is excitingly rich and tempting. Canned fruit requires but little sugar. Deep red color penetrates the flesh when canned. Holds its shape perfectly.

BIG MONEY-MAKER

Red Giant is a prize-winner at any fruit show, and brings highest prices on the market. Firm enough to ship as far as you like! A money-maker that you'll be proud to grow. (Red Giant Plum is grown and sold only by Emmlong's. Prop. rights reserved.)

NO DISCOUNTS AFTER MARCH 15TH, and NO DISCOUNTS ON BARGAIN and COLLECTION Lots of Stock at Any Time

QUANTITY RATES GENERAL TERMS

Commercial Fruit Growers and Landscape Gardeners—**Write for Special Prices, stating what you need.** We quote lowest prices, based on supply of stock.

See back of order blank for full details and terms. **RESERVE YOUR ORDER AS SOON AS YOU RECEIVE THIS BOOK. THIS IS ESPECIALLY IMPORTANT THIS YEAR, DUE TO SCARCITY OF HELP.** We ship at the proper time for planting in your locality, or you may notify us when you are ready to plant—but allow extra time due to transportation conditions this year. Send full cash with small orders. Orders amounting to \$10.00 or more may be reserved early with a deposit of 25%. Balance to be paid before shipping time or C.O.D. State how you wish to pay the balance, on the order blank. **No discount is allowed on C.O.D. Orders,** but you may use the discount on the 25% cash deposit.

We pay postage on Perennial Flower plants, bulbs, small strawberry plant bundles, as they are usually shipped separate from more bulky stock. Other items are sent collect for postage or express, which automatically insures them in transit.

Sure-to-Grow Fruits & Flowers

GROWN IN THE HEART OF THE NORTHERN FRUIT BELT

You will agree that whether you pay 15c, or \$2.50 for a fruit tree, its value to **YOU** depends on its **BEARING "POWER"** . . . if it's a flower plant, it is **BLOOMING "POWER"** which determines the value of your investment.

Emlong fruit trees and plants are grown on **choicest WHOLE-ROOT stock**. That makes them full of vitality. They bear more, bigger, and better fruit. Our stock is all grown here on our own farms, in the heart of the most famous northern fruit belt. Both soil and climate are **ideal** for growing plants and trees.

WORLD'S FINEST BREEDING

Good breeding is important to good nursery stock . . . Good stock produces **A-Grade fruit in greater abundance**. Emlong's stock is of the **World's finest** breeding. We are surrounded by bearing orchards of the most profitable strains and varieties. From these our experts select the best buds from state-inspected trees, which show the biggest and best fruit.

Emlong-grown stock gives you bigger and better bearing and blooming power, because you get **ALL the roots**, and **ALL the life!** We have trained workers with long experience, who use specially-built modern machines for tillage, planting, cultivating, spraying, rain-making and digging!

GUARANTEE

All nursery stock you buy from Emlong's is **GUARANTEED to ARRIVE IN FINEST GROWING CONDITION**. (We will replace any damaged stock **FREE** if claim is mailed within 3 days after you receive it. Have your Postmaster or Express Agent sign a damage statement.) **GUARANTEED TO GROW and LIVE**. (If it fails, send us claim of loss within 30 days after planting, and we will replace it **FREE** the following season.) **GUARANTEED TRUE TO NAME**. (If found to be otherwise we replace **FREE** on due proof of untruthness.)

Signed: **EMLONG NURSERIES,
STEVENSVILLE, MICH.**

3 Sensational New *Scarlet*

ENDORSED BY BIG PEACH GROWERS—NEW SOURCE OF

KEEP AHEAD OF THE PARADE!

Your peach orchards will bring greater profits if you keep your varieties up-to-date. Get started early with all the dependable, tested new varieties.

These new red-skin peaches color brightly long before ripe, and can be marketed at top prices while they are still firm enough to ship long distances. Plant them along with other Peach varieties offered on pages 6, 7 and 8, to round out your orchard. Also highly desirable for small home plantings!

Famous **REDELBERTA**

(U. S. Pat. 232. Trade Mark Reg.)

This gorgeous daughter of Elberta, with its flaunting red-all-over dress, is truly the Queen of Peaches! On the tree, and in the basket, it captures the eye above all other varieties, with its brilliant color. Reddens long before ripe. Pick and ship to distant markets while ideally firm.

Perfectly freestone and self-pollenizing, Redelberta bears an enormous crop of full-size fruit every year. Has a rich, delicious flavor, free from all bitterness. Wonderful dessert and canning peach. **Ripens a week to ten days ahead of Elberta.** Takes an "A" rating for quality. **RESERVE TREES TODAY—PLANT THIS SPRING.**

Peaches

GREATER EASY PROFITS

Flaming **REDHAVEN**

THE PEACH THAT SOLD FOR \$60.00 A BUSHEL!

The first half-bushel of Redhaven Peaches bought on the Benton Harbor, Michigan market brought \$30.00. News of this wonderful new early red peach spread rapidly, and last year we couldn't supply more than one-tenth of the demand! Introduced by the South Haven Experiment Station, it has been tested by experienced fruit growers, alongside of other varieties of peaches, in their orchards, and found highly satisfactory.

FAMOUS "HAVEN" FLAVOR

Right at the beginning of the peach season, when other early peaches are still green, Redhaven peaches are beaming from the trees like scarlet beacons! Ready to eat and ship before they are ripe. Redhaven has the famous flavor bred into South Haven and Hale-Haven. It's a hardy variety, freestone, self-pollinating, and a big yielder. A real all-around peach!

BRIGHTEST RED DRESS!

Even brighter red than Redelberta, and definitely in the quality class with Redelberta, which ripens later. Can be picked many days before ripe, and hauled to distant markets. Destined to stand with all the big-profit peaches. **GET YOUR TREES THIS SPRING—ORDER TODAY.**

PRICES—REDHAVEN TREES (Emlong-Grown)

Gorgeous New REDHALE Peaches—Now 50c per Tree

Exclusive

REDHALE

GROWERS ASKED FOR IT

Because large scale growers here in Berrien County asked us to grow Redhale trees, we decided to grow enough for our catalog friends too!

Redhale is a late type, coming soon after Elberta. The fruit resembles Hale in fineness and firmness of flesh, and in richness of flavor. Redhale colors up to a rich gold, overspread with a deep red blush, making a beautiful pack for market.

Redhale fruit is rounder than Elberta and packs easily. Finest quality for shipping and canning. It is self-pollinating and freestone. We have found it to be hardy, and a tremendous producer of large, uniform fruit.

As our supply of Redhale trees is limited, we recommend that you reserve your order as soon as you receive this catalog. Plant this spring. Set the trees 20 feet apart each way.

PRICES—REDHALE TREES (Emlong-Grown)

Branched Trees:	Each	10	25	100

Famous Emlong Grown PEACH TREES

From the Heart of the Fruit Belt

Heaviest Fruiting Strains

Emlong's Peach trees are budded from bearing orchards, the buds being selected right here in Berrien County, the heart of the great northern fruit belt. You can depend on them being true to name, the heaviest fruiting strains, up-to-date varieties, and brightest-colored strains. We grow only dormant bud peach trees. They have two-year-old roots and one-year-old tops when you receive them. All of the grades priced at the top of page 7 are well-branched, big-caliper, fully matured, well-rooted trees. Set peach trees 16 or 20 feet apart. Can be planted between apple trees, which are planted 40 feet apart. **SEE PAGES 4, 5, 7 and 8 for other varieties of Peach trees.**

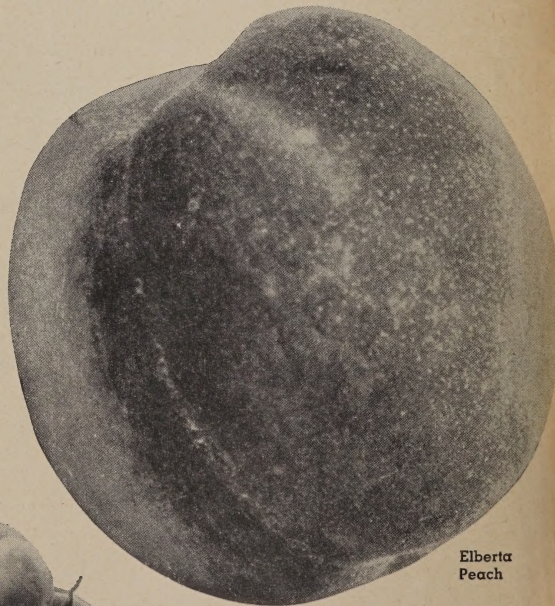

The Great ELBERTA

No other peach has ever attained the universal success and fame that Elberta boasts. Genuine Elberta peaches are roundish oval, with golden yellow skin blushed with deep red. Ripen midseason to late. The leading canning, shipping, drying, storage peach because of the firm flesh and good flavor. Freestone and self-pollenizing. Elberta trees are strong growers and big producers. **PRICED AT TOP OF PAGE 7.**

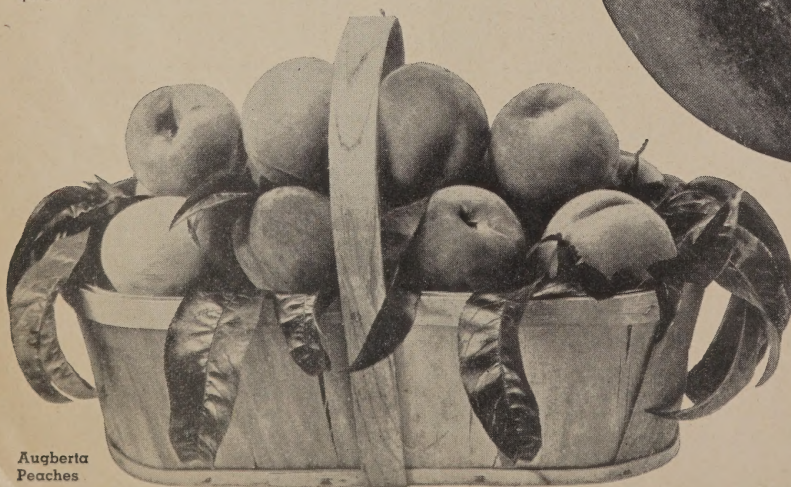

Profitable
Fertile Hale

The New FERTILE HALE

When you have finished picking your Elberta peaches, it's nice to have some Fertile Hale to add about 20 per cent to your peach profits! Fertile Hale is an Elberta-Hale type peach, ripening about a week later than Elberta. Has rich Hale flavor and quality. More colorful than Elberta. Ranks high for hardiness, yield, shipping and canning quality. Freestone, self-pollenizing, heavy-bearing type. U. S. Patent No. 175. **PRICES: 5c per tree MORE THAN PRICES at top of page 7. (Example: 10 trees, 3 to 4 ft. cost \$3.50.)**

Elberta
Peach

Augberta
Peaches

AUGBERTA

A Jewel of a Peach!

Ripening a week later than Elberta, this big, round, golden-orange peach brings fancy prices. The flavor is supremely rich in the fresh and canned fruit. Size and color alone make it popular, but the flavor makes it perfect. A freestone, self-pollenizing, hardy, big bearer. You must grow it to appreciate it. **PRICES AT TOP OF PAGE 7.**

The Best that Money Can Buy!

PRICES FOR Spring 1943

ALL PEACH TREES (Except where otherwise stated)

(50 trees or more at the 100 rate. 2 to 3 ft. and 3 to 4 ft. trees available in lots up to 10. Others by Express.)

The Flavorful J. H. HALE

This famous peach is always in demand for fancy dessert purposes, both fresh and canned. Housewives endorse it by paying higher prices for it! J. H. Hale is an extra big, round, highly colored beauty, with golden yellow skin and flesh. Fine textured, firm, juicy, exquisitely flavored. Skin almost fuzzless. Freestone and semi-fertile. Plant a good pollenizer peach every third row. **PRICED ABOVE.**

White EARLY DISCOVERY

We think Early Discovery is better than other white peaches because it's so rich and fragrant. Flesh tastes like "white honey." It's large, and splashed all over with red marks. **RIPENS IN JULY.** Extremely hardy, self-pollenizing, big cropper, young bearer. **PRICED ABOVE.**

Rich New KALHAVEN

A beautiful orange-red peach which ripens a week or ten days before Elberta. Bears a fine crop of brilliantly colored fruit. Wonderfully sweet flesh. Good keeper, shipper, canner. Hardy, big-cropper, freestone, and self-pollenizing. **PRICED ABOVE.**

J. H. Hale
Peach

GOLDEN JUBILEE

Acclaimed a big-paying, big-cropping, commercial shipping peach by all the experienced growers. Somewhat oblong in shape, it colors to bright orange, deeply blushed with red. Flavor is a real treat! Ripens extra-early. Freestone, an excellent pollenizer. Plant plenty of Golden Jubilee, for they always bear. **PRICED ABOVE.**

Brilliant ROCHESTER

A round, orange-colored peach, with blazing red cheeks and splash marks. Famed for its extra-good flavor and firm flesh. Preferred by canning firms. Rochester ripens very early. Wonderfully hardy and a dependably great yielder. It's freestone and a perfect pollenizer for itself and other peaches. **PRICED ABOVE.**

O'Boy

THE PERFECT PEACH

(Trade Mark Reg.)

Right here is the largest, richest, most beautiful peach in the whole world! O'Boy is round and uniformly shaped. Skin is glowing orange, blushed all over with deep, dark red, even before ripe!

Whether eaten fresh or canned, O'Boy has the richest flavor of any peach you have grown. The flesh is orange. There is a sunburst of bright red around the pit, which glorifies the flesh and imparts a superbly beautiful color to the canned fruit.

The largest peach grown in Southwestern Michigan, it makes other varieties look small! Even little 3-year-old trees bear a big crop (see photo at bottom of page, made from snapshot.) Firm of flesh and skin, they ship well. Perfectly free-stone and semi-fertile. Very hardy. Ripens when Elberta is finishing during normal years. Brings highest price on the market. **DON'T FAIL TO PLANT O'BOY IN YOUR ORCHARD THIS SPRING!** (Prop. rights reserved.)

HALE-HAVEN
Peach

Hale-Haven

EMLONG'S REDDER STRAIN

Second only to Elberta in popularity, and in the number of trees planted each year! Hale-Haven is one of the grandest shipping and canning peaches ever grown. Each peach is a great big handful of rich, snappy, tempting sweetness. Juicy, brightly colored, and with a flavor you'll never forget.

Hale-Haven peaches color rich orange all over, with deep blushes and markings of carmine-red. Color brilliantly long before ripe. Ripen about 15 days ahead of Elberta, at a time when the market needs and pays for good peaches.

A freestone, perfectly self-pollenizing variety which ranks A-1 for hardness and yield. Bears a full crop when other varieties fail. Plant a large section of your orchard to Hale-Haven for crop insurance! **ORDER TREES THIS SPRING.**

**HARALSON
APPLE**

New **HARALSON APPLE**

No matter how cold your winters are, you can have big, beautiful, dark-red-all-over apples now! Haralson thrives everywhere. Trees are thrifty growers and heavy producers. Fruit is crisp, juicy, flavorful, fragrant and white. Winter storage and shipping kind. **PRICED ABOVE.**

TURLEY WINESAP

Solid red all over. Turley is an extra large, late winter storage apple—keeps the year around. Firm, sweet, crisp flesh. Excellent both for dessert and cooking purposes. **COLOR PHOTO ON PAGE 9. PRICED ABOVE.**

Solid Red JONATHAN

So richly flavored, whether eaten fresh, cooked or dried. Rich red all over long before ripe. A quick seller. Keeps all winter in storage. Trees bear young and heavily. **COLOR PHOTO ON PAGE 9. PRICED ABOVE.**

Solid Red NORTHERN SPY

The old northern favorite, dressed up in a new bright red-all-over gown! Finer flavor, but same wonderful keeping quality. Favored for drying, baking, storage, pies, etc. **COLOR PHOTO ON PAGE 9. PRICED ABOVE.**

Solid Red DELICIOUS

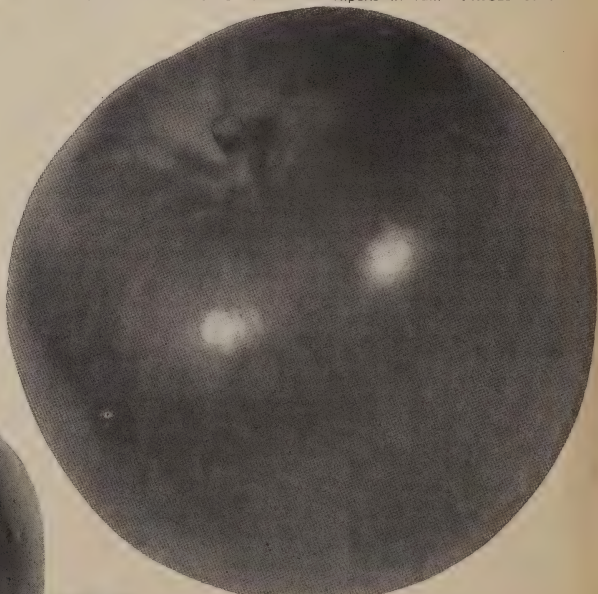

King of all apples! Biggest seller everywhere. Colors bright red all over, long before ripe. Can be picked and marketed while firm and solid. Fruit uniform in size, richly flavored. Excellent shipper and storage kind for winter. **COLOR PHOTO ON PAGE 9. PRICED ABOVE.**

Solid Red ROME

One of our best selling, biggest paying winter storage apples. Extra-large, round, shapely fruit with bright red color all over. Very firm and fine in texture, sweet, crisp and juicy. Keeps all winter. Equally desirable fresh, dried or cooked. **COLOR PHOTO ON PAGE 9. PRICED ABOVE.**

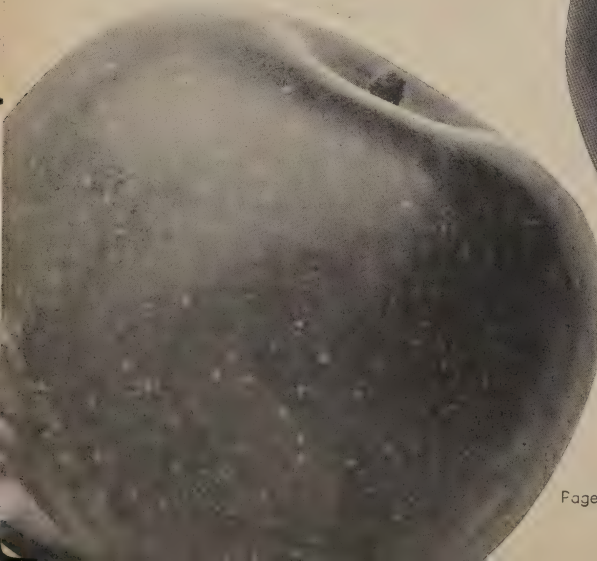

McINTOSH

Emlong's extra large strain is bright colored, of wonderfully firm quality, juicy, crisp, and aromatic. Ripens in fall. **PRICED ABOVE.**

New BEACON APPLE

An apple to really get excited about! Bright, flashing red all over, and beautiful to behold! Ripens EARLY FALL, but HAS THE QUALITY OF A WINTER APPLE. Keeps wonderfully well—marvelous shipper as it does not bruise readily. Flavor is zesty, enticingly sweet. Firm, white, aromatic flesh. Originated in Minnesota, it stands the coldest winters, always bearing a full crop. **GOOD NEWS! SAME PRICE AS COMMON VARIETIES THIS YEAR—SEE TOP OF PAGE 10.**

ANOKA

SPEEDY BEARER! The two-year old trees are said to bear the first or second year after planted! A good tasting, good looking, summer cooking and eating apple. Red and green striped. **VERY HARDY EVERYWHERE—FULL CROP ASSURED EVERY YEAR. PRICED TOP OF PAGE 10.**

GOLDEN DELICIOUS

One of the most popular, and most delicious apples in existence. Skin is lovely waxy yellow, often blushed pink. Flesh crisp, white, sweet and aromatic. Young and heavy bearer. Large-fruited strain. **PRICED TOP OF PAGE 10.**

CARSON

An extra-large, new apple that's mighty profitable. Ripens late summer, ahead of Wealthy. Bright red and yellow blushed all over. Makes a beautiful pack. A zesty, crisp flesh. Excellent for eating or cooking. Good pollinizer. **PRICED TOP OF PAGE 10.**

CORTLAND

A mammoth, round, fall apple, famed for quick bearing and tremendous crops. Hardy everywhere, and an excellent pollinizer. Skin is dark red with purplish bloom. Flesh white, crisp, flavorful to eat fresh or cooked. **PRICED TOP OF PAGE 10.**

JONATHAN

The standard bright red, firm quality, early bearing, heavy fruiting strain of Jonathan. Grown everywhere for winter storage and drying. Excellent flavor. **PRICED TOP OF PAGE 10.**

DELICIOUS

Grown from coast to coast because it sells so good and makes profits for everyone. Bright red strain. Mellow, aromatic, sweet dessert apple. **PRICED TOP OF PAGE 10.**

STAYMAN'S WINESAP

The old favorite, which bears extra-large, bright red fruit in great quantity. Wonderful eating and winter storage variety. **PRICED TOP OF PAGE 10.**

YELLOW TRANSPARENT

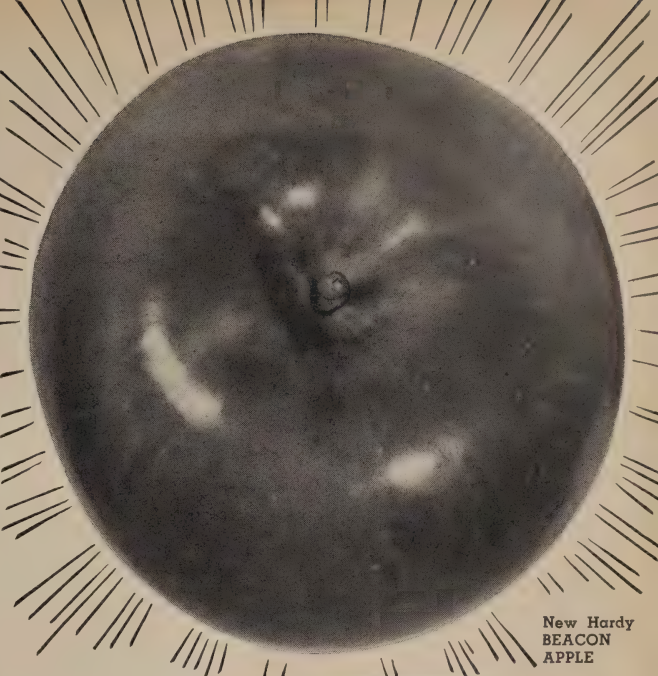

Loads and loads of bright waxy yellow apples in mid-summer, no matter how cold your winters get! Quick bearer. Acid cooking sort. Great pollinizer. **PRICED TOP OF PAGE 10.**

WEALTHY

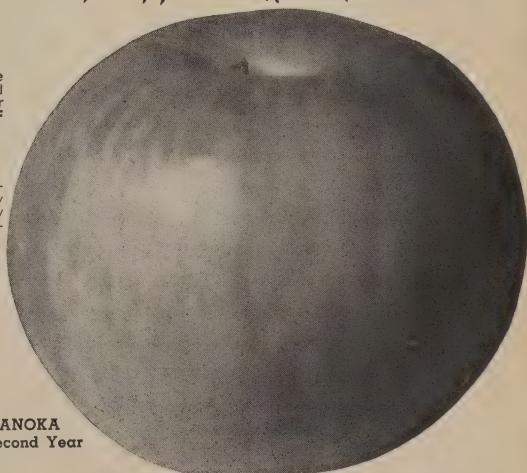

Dependable pollinizer for other apple varieties. Big red and green striped fall variety. Good, firm, acid flesh for pies and cooking. **PRICED TOP OF PAGE 10.**

GRIMES GOLDEN

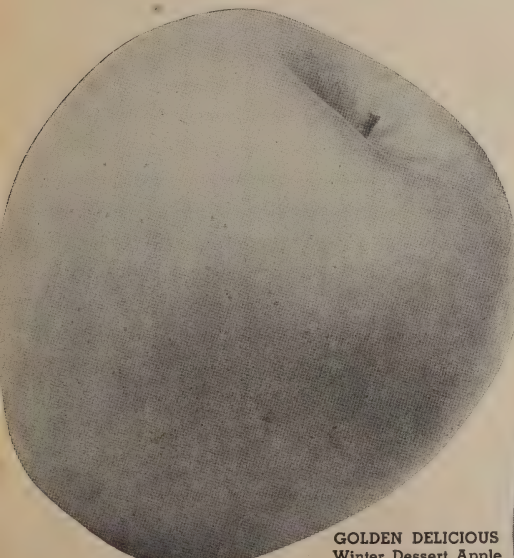

Most excellent yellow apple for winter storage and shipping. Solid, dry flesh, excellent for drying purposes. Very flavorful. Trees are hardy, prolific, dependable. **PRICED TOP OF PAGE 10.**

Like Glowing Fire! New Ember Plum

Here's a big, golden flame lump of pure natural fruit-honey! Grow them for fancy dessert and canning purposes for home and market. Ember plums are golden yellow, flushed deeply with flame-red. Trees bear second year and always crop heavily. Hardy anywhere in the United States. **Plant this spring! PRICES TOP OF PAGE 13.**

Now! For Cold Climates Superior Plum

Bears the second year, and simply "loads up" with enormous crops every year. Every plum full size like the picture below. Beautiful dark plum-red skin and sweet, juicy, golden flesh. Small free pit. Very aromatic and appetizing. Brings highest prices and cans wonderfully well. Originated in northwest—perfectly hardy everywhere. **PRICES OF TREES AT TOP OF PAGE 13.**

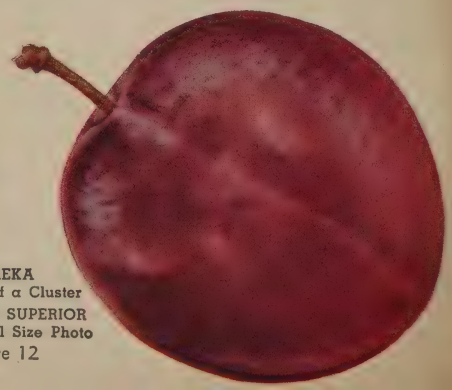

Emlong's Mammoth "Red Nectar" Fruit EUREKA, the Great

The sensational new plum which **tastes like a combination of plum, peach and apricot!** Good to eat in the golden stage when half ripe, and in the maroon-red stage when full ripe. Can them either way, whole or in halves. Mammoth size fruit produced in tremendous quantities! Extremely hardy, never misses a crop, and bears second year. Takes prizes at fairs and fruit shows! (Grown and sold only by Emlong's.)

(50 or more trees at the 100 rate. One to 10 trees of 2-3 and 3-4 ft. can be shipped by Parcel Post. Larger sizes and quantities by Express). (SET PLUM TREES 25 FEET APART EACH WAY. 64 trees plant an acre).

ITALIAN PRUNE

From coast to coast, Italian Prune plums are grown with equal success by the successful large scale orchardists. Long the leading prune-plum for canning, drying, storage and shipping. Extra large in size, unique long prune shape, beautiful purplish black skin. Flesh is firm, yellow, fine textured, juicy and sweet. Pleasantly sub-acid. Retains its shape and color when canned. Trees are hardy, thrifty growers, regular and prolific producers. **PRICED ABOVE.**

DUNKLEBERG

Here's a plum that really works overtime to bring you profits! The trees are **EXTREMELY HARDY, TREMENDOUS BEARERS**, and never fail to produce an enormous crop. An **EXCELLENT POLLENIZER** for other plum trees also. Fruit is medium size, oval, dark bluish purple, overspread with attractive bloom. Flesh is yellowish-green, firm but tender, juicy and **VERY SWEET**. Stands long distance shipping. Wonderful canner. **PRICED ABOVE.**

Hardy GOLD PLUM

A favorite dessert plum, both fresh and canned. Beautiful waxy-yellow skin and attractive shape. It's sweet, juicy and mild . . . enjoyed by everyone. Trees are rapid growers, never failing to produce a full crop of first-class fruit for general home and commercial use. Hardy. **TREES PRICED ABOVE.**

SHROPSHIRE DAMSON

Slightly larger than other Damson, and just as blue and firm skinned. Not quite as highly flavored, but an excellent shipper and canner. Retains its rich color and flavor after canned. Tremendous producer. **TREES PRICED ABOVE.**

DAMSON FREESTONE

This is the improved little Blue Damson, which is so popular for plum preserves, plum jam, etc. Just packed with deep plum flavor! Flesh, skin and juice color to deep maroon-red when canned. So hardy and prolific it never fails to bring fine profits. Grown by all the big orchardists—it should be in your orchard too. Plant this spring. **TREES PRICED ABOVE.**

BURBANK PLUM

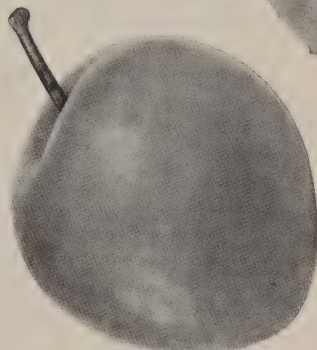

Big round, maroon-red variety which always bears a full crop. Trees bear so heavily the fruit must be thinned. Has tasty yellow flesh of fine and firm texture. Juicy and desirable to eat both fresh and canned. Fine shipper. Thrives in every part of the country. **TREES PRICED ABOVE.**

IMPORTANT NOTICE

CAMPA PEAR

Here's the big, mellow-yellow winter Pear you've been hearing about. It belongs to the Kieffer family, but is larger, and richer flavored, Finer flesh, smoother texture. Hardy, big-yielding trees. Winter storage variety. **PRICES: CAMPA TREES, 4 to 5 ft., 65c each; 10 for \$5.95. SUPER SIZE, 75c each; 10 for \$6.95. (Not prepaid.)**

What is more charming than a bungalow wall adorned with climbing flowers and fruits. Two-arm candelabras in this style fit between tall, narrow windows. It's really a simple and enjoyable pastime to train them in artistic shapes.

Espalier Trained fruit trees bear quickly, because their energy is directed into a small number of branches. The above horizontal style makes an interesting fence or screen. Center leader is removed when tree has attained desired height.

Espalier Trained Fruit Trees GROW LIKE VINES

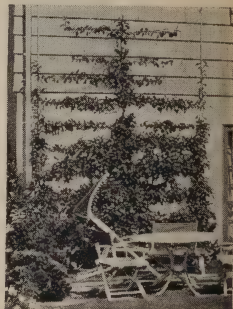

You just can't imagine how wonderfully useful these little Espalier Trained fruit trees can be! First of all, they're **extremely artistic**, and lend a unique charm to the landscape wherever used. Secondly, they're **practical** because they fit in where no shrubs or flower plants will grow. Even a space 6 inches wide, between the driveway and house or garage, will accommodate Espaliers!

But, best of all, you get **BOTH BLOSSOMS AND FRUIT** from them. They bloom freely, then load up with **FULL SIZE**, luscious fruit, which you can let hang on the vines and pick to eat fresh whenever you want it. They **last a lifetime**, for their efforts are confined to a small space. Require less care than other fruit trees, and no more care than a shrub.

Espalier trees can be trained to fit the space you have for them. The popular two-tier style (sketched in the price list below), can be trained as a horizontal fence of as many tiers as you require. It can be trained into a many-armed candelabra style. The center leader can be trimmed out and the tree made into either a two- or four-arm candelabra to fit between narrow window spaces.

COMPLETE PLANTING AND TRAINING DIRECTIONS ARE SENT FREE WITH EACH ESPALIER TREE. Each tree is registered by the planter, and guaranteed by the propagator to bear and be true to name.

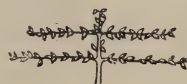

Grown by America's oldest Espalier specialist on genuine Swiss root-stock. **Plant with confidence!**

Prices Espalier Trained Fruit Trees

(By Express) NO DISCOUNTS

- (1) **RED DELICIOUS APPLE.** Two-tier, 3-yr., 3-4 ft. tall, 6-8 ft. width. \$4.00 each.

QUINTUPLET TREES Each Bear 5 Kinds of Fruit

If you only have room for one Apple or Pear tree in your yard, why not plant a **QUINTUPLET!** These are standard-size, budded fruit trees (not dwarfs). They each bear five different varieties of Apples or Pears.

You can have an abundance of fresh fruit to eat, cook, can, dry, and store for the winter . . . all from one tree. The Apple tree will bear from summer until winter, producing both yellow and red fruits. They start bearing young, for **these trees are three years old when they reach you.** The Pear trees will bear five different kinds of pears, starting with the summer varieties and finishing with the winter storage kind. Only the best, dependable varieties are budded to these trees.

Just the thing for small yards. Also desirable to use for shade trees on city lots. Plant them near your summer cottage also, to have fresh fruit while you're vacationing.

PRICES—QUINTUPLET TREES

QUINTUPLET APPLE (One-tree Apple Orchard), 4-5 ft., \$1.50.

QUINTUPLET PEAR (One-tree Pear Orchard), 4-5 ft., \$1.50.

(Shipped by Express. Order early because of scarcity.)

Only \$1.50

For a One-Tree Apple or Pear Orchard! Worth hundreds of times this price.

DWARF TREES

Bear Large Fruit

Below: Red-Fleshed SAPA PLUM. Bears beautiful fruit along branches in ropelike formation.

Dwarf PEAR TREES

You don't have to climb a ladder to pick big, luscious sweet pears from these trees! They're just natural dwarfs, grown on special root-stock, so they never grow more than 8 to 10 feet tall. A beautiful sight when aglow with fragrant white blooms in spring, and loaded with yellow and red pears in late summer and fall. Plant 8 feet apart. Train them any way you prefer.

Emlong's Amazing New Fruit

Seedless PEAR

EVERY BITE A DELIGHT!

Here's the new luscious pear you've been reading and hearing about! It's fully as large as the largest Bartlett, and as colorful and flavorful. Sweet, fine-textured flesh, but extra firm and able to stand shipping as well as Bartlett. A fancy fruit for fresh dessert purposes, and ideal for canning.

EAT IT ALL—CAN IT WHOLE

Seedless Pear is just **SOLID PEAR ALL WAY THROUGH. NO SEEDS OR CORE** to bother with. Just peel and can them whole, with the stems on. A beautiful sight in the cans! Grand for fancy salads, etc., when tinted red, green or gold.

PRACTICAL SOURCE OF PROFIT

Seedless Pear is not a novelty—it's a high-grade home and market variety. Introduced by Mr. J. Cope, Ohio Nurseryman, and endorsed by Prof. Ellenwood, Ohio Agri. Expt. Sta. This new pear has rapidly gained favor wherever pears are grown. It ripens 10 days after Bartlett, and keeps several weeks in storage. The **TREES USUALLY BEAR WHEN THREE YEARS OLD**. They are very hardy, thrifty growers, regular and heavy yielders. (Pat. Pending. Emlongs are licensed growers.)

PRICES NOW SLASHED!

Emlong's new low prices take Seedless Pear out of the luxury class, and make it possible for everyone to grow an orchard. **ORDER YOURS TODAY—PLANT THIS SPRING!**

New HARDY Budded NANKING CHERRY

Developed by the Minnesota State Fruit Breeding Farms, these new **Hardy Cherries** now bear full-size, high-quality fruit. Low-growing shrub or tree (can be kept in either form). Plant as an ornamental, or in the garden. Grow 5 to 6 ft. tall. Blooms white, with fancy red calyx. Fruit is rich scarlet. Good to eat fresh, in jam, pie, jelly or wine. Plant two or more for pollinization. **PRICES** (*Prunus Tomentosa*) **NANKING CHERRY**: 2 to 3 ft. branched, 65c each; 3 for \$1.75. Mailable.

Hardy JUNE BERRIES

If your winters are too cold to grow Blueberries, plant **Juneberries**. Bushes grow 4 to 6 ft. tall, and produce ornamental white flowers in spring. Berries are one-half inch or more in diameter. Dark maroon-red and very sweet and mildly sub-acid. Use same as Blueberries fresh, canned, in pies, etc. 18- to 24-inch bushes, 59c each; 3 for \$1.50. Mailable.

CRANBERRIES

Bright red, round berries borne in huge clusters. Delicious for sauce, jam, juice, etc. Grows on any good soil. Bushes grow 5 to 6 ft. tall. Attractive 3-lobed leaves color maroon in fall. Hardy, easy-to-grow. Plant 5 ft. apart. 2-yr. bushes, 59c each; 3 for \$1.50. Mailable.

WHITE CURRANTS

Here's the delectable and delicious **WHITE GRAPE CURRANT**, so pretty for salads, fruit cocktails, conserve, etc. Grow them for beauty of the bushes as shrubs, and for usefulness of the fruit. Very rare! **PRICE**: Selected 1-yr. bushes, 39c each; 3 for \$1.00. Mailable. (SHIPPED ONLY TO STATES MENTIONED AT RIGHT.)

GOOSEBERRY PLANTS RED JACKET

Large, roundish oblong, red berries. Very attractive, and sweeter than all other varieties. Delicious fresh, in salads, pies, canned, in jam, etc. Big money-maker for market. Selected 1-yr. plants: 35c each; 10 for \$2.25; 25 for \$4.50; 100 for \$15.95. (SHIPPED TO STATES MENTIONED AT RIGHT.)

DOWNING GREEN

The standard large green gooseberry favored for canning and shipping. Highly flavored. Big yielder. Selected 1-yr. plants: 35c each; 10 for \$2.25; 25 for \$4.50; 100 for \$15.95. (SHIPPED ONLY TO STATES MENTIONED AT RIGHT.)

Important Notice!

WE SHIP CURRANT AND GOOSEBERRY PLANTS ONLY TO THE FOLLOWING STATES: MICHIGAN, ILLINOIS, INDIANA, KANSAS, MISSOURI, IOWA, NEBRASKA, OKLAHOMA, N. DAKOTA, S. DAKOTA, KENTUCKY, TEXAS, COLORADO. No orders shipped after April 15th as plants must be dormant.

On Emlong's "Wise-Investment" **VICTORY** Orchards and Gardens

Here's your chance to be both thrifty and patriotic! An investment in fruit plants and fruit trees helps not only yourself and family, but also the general food situation in the country. Plant more this year than you ever have before! **Grow an abundance of fruit** to eat fresh, to can, to sell, and to give to your friends.

There's more than just dollar-and-cent profit in fruit-growing! Working in the garden improves both mental and physical health, makes the time go faster, and keeps one from worrying so much.

The United States Government urges everyone with a spare plot of ground to plant both food crops and flowers. In co-operation with the government, patriotic citizens everywhere have organized Victory Garden Clubs. To aid you in planting more fruit trees and plants this spring, Emlong's have arranged these special assortments of quick-fruited, heavy-yielding plants and trees at rock-bottom prices. We sacrifice our profit on these assortments, so that you can **plant more and make more** from your investment.

Remember, plants and trees are not an extravagance... they are a **wise investment for further benefits** to you and your community. **Order these assortments by name and number.**

Mrs. Clifford Emlong shows how women throughout the U. S. are co-operating with the victory gardening and home canning program. She selects and cans fruit for her family. Mr. Emlong was chairman of the Victory Garden Club in St. Joseph, Mich., last summer.

World's Favorite Pie and Cider Cherry

Large MONTMORENCY

FINEST ALL-PURPOSE CHERRY

Montmorency is now unquestionably the only profitable and thoroughly satisfactory **Sour Cherry** to grow, regardless of where you live. It is preferred by canners and pie makers everywhere. Deliciously sub-acid, it is good to eat right off the tree, made into pies, or canned. Makes delicious cider, which is recognized as one of the modern health drinks.

Montmorency fruit ripens midseason to late. Has remarkable keeping quality on the tree, and after picked. Always a big yield of "A"-GRADE fruit. Plant half Montmorency and half assorted sweet cherry trees for a well-balanced orchard of cherries. Set the trees 25 feet apart. 64 trees plant an acre.

YOUNG-BEARING TREES

Emlong's large Montmorency trees bear very young—often the second year. Our special strain of large-fruited trees has been built up by careful selection of buds from marked, state-inspected trees, which show largest fruit and biggest yield.

Emlong's FRUIT BELT STRAIN

Located right here in the greatest fruit belt in the country, our trees are all **home-grown** and **northern grown**. Both soil and climate are ideal to produce the famous quality of which we are proud. Our trees please the big growers—they will please you also. **BUY DIRECT FROM THE GROWER AND SAVE MONEY. PLANT THIS SPRING.**

Hybrid Bush Cherry in Full Bloom

Emlong's Popular Big-Yielding SWEET CHERRIES

You'll never know how good Sweet Cherries can taste, until you grow them in your own yard, to pick and eat fresh! Or how much profit they can bring you, until you grow Emlong's Fruit Belt Trees. They are bred to bear quickly and heavily, and produce largest, finest quality fruit. Set two or more varieties of sweet cherries to insure perfect pollenization. Plant trees 25 feet apart. 64 trees plant an acre. **ORDER YOURS TODAY —PLANT THIS SPRING.**

BING

An extra-large, round, plump, beautiful sweet cherry. Ripens to an attractive brownish black-red. Wonderful dessert and home-canning type. Ripens medium-late. **PRICED BELOW.**

BLACK TARTARIAN

Our most popular black sweet cherry! Glossy, purplish black fruit of large size. Ripens early and has marvelously rich flavor. Excellent canner and shipper. Trees are vigorous growers, dependable bearers, and regular producers. **PRICED BELOW.**

BLACK GIANT

The biggest, blackest, and sweetest cherry! Bears heaviest crops of any variety we have known. Ripens fruit late, and keeps a long time on the tree and after picked. Worth more on the market because it's better! Hardy as Tartarian. **PRICES: 5c per tree more than other varieties priced below.**

GOLD

Hardest sweet cherry grown. Ripens to pure amber-gold. Very sweet, mild, juicy dessert variety. Large fruit. Can it for your fancy salads, etc. (Birds will not molest this variety.) **PRICED BELOW.**

LAMBERT

Extra-late, blackish red sweet cherry which brings in the profits after other varieties are gone. Richly flavored, juicy, remarkable keeping quality. Fine producer. **PRICED BELOW.**

NAPOLEON

(Royal Ann.) Most popular yellow-gold sweet cherry because of its beautiful pink cheek. Mellow-sweet flavor. A fancy dessert variety, but also a good keeper and bearer. **PRICED BELOW.**

SCHMIDT

One of our largest selling sweet cherries. Schmidt is the height of excellence in quality for eating, canning, storing, shipping. Crisp, firm, sweet, fine flesh. Ripens midseason. Trees are vigorous growers, tremendous yielders, sure croppers. **PRICED BELOW.**

SENECA

New extra-early blackish purple sweet which ripens ahead of Tartarian. Wonderful flavor and quality. Hardy, dependable full-cropper. Money-maker in every orchard. **PRICED BELOW.**

WINDSOR

Best medium-late maroon-red sweet cherry. Famed for hardiness and keeping quality. Favorite canning sort. Grown by the big orchardists, it will make money for you! **PRICED BELOW.**

ASPARAGUS

Easy to Grow—and So Good for You
ONE PLANTING LASTS MANY YEARS

DEPENDABLE *Emlong-Grown* ROOTS

When you plant Asparagus it pays to get the best, for one planting lasts many years with proper care. Emlong-grown roots are produced on light, fertile, well-drained upland soil. They are big-caliper roots—bright colored and solid all way through. We have grown them for years, and know how to serve you to your 100 per cent satisfaction. We use only the most expensive pedigreed seed to insure you of receiving the finest strain of tips on the market.

Plant Asparagus crowns in the spring during March, April or May. Order today so that we can reserve your needs. **COMPLETE CULTURAL DIRECTIONS UPON REQUEST. HOME CANNING DIRECTIONS ON REQUEST.** Be sure to plant plenty of Asparagus. It's a sure crop—not affected by frost. Packed full of vitamins important in your menu the year around. And so easy to grow!

Washington 50 Roots 75¢

Introduced by the U. S. Dept. of Agriculture a few years ago, Washington has held sway as the main-crop variety for home, market and canning. Produces large, tender, green tips. Famed for mild, full flavor.

A few roots produce many tips, and a few tips go a long way, as you can usually use 6 to 7 inches. Plant about 12 inches apart in the garden. An acre requires about 5000 roots.

PRICES—WASHINGTON ROOTS

	25	50	100	250	1000
1-yr. \$0.55	\$0.75	\$1.25	\$2.75	\$6.50	
2-yr. .95	1.50	2.50	4.50	

(25 to 100 roots available. Others Express.)

Paradise 50 Roots 89¢

New giant strain originated in California. Makes long, thick, very tender green stalks which grow quickly. Mild, pleasant flavor. Retains its normal flavor after freezing for the fresh vegetable market. Delicious canned.

Bears a full year sooner than other varieties! Six stalks average a pound. Highly profitable for market and canning company contracts. Plant same as Washington variety.

PRICES—PARADISE ROOTS

	25	50	100	250	1000

(25 to 100 roots available. Others Express.)

Horseradish Roots

Famous Maliner Kren variety. Easy to grow in the garden for home use, or in the field for market purposes. Produces an enormous yield and is ready to use early.

Fresh, grated horseradish from your own garden is a tasty condiment to use with meat, fish, salads, etc. Set the roots 12 inches apart in spring. Roots ready to dig in fall. Likes moist, fertile soil. **WHOLE ROOTS: 3 for 75¢; 10 for \$1.95.**

OLD-FASHIONED HERB GARDEN

Rooted plants of PEPPERMINT, SPEARMINT, SAGE, CHIVES, PARSLEY, THYME. Any 3 for \$1.50; all 6 for \$2.85, post-paid.

SUNRISE Raspberry—5 Plants, \$1.00

New This Year! **SUNRISE** EARLIEST RED RASPBERRY

If you have liked Latham berries, you will thrill to the flavor of SUNRISE, newest and brightest of the Red Raspberries! A cross between Latham and Ranere, the berries are bright red, of fine texture and marvelous keeping quality. Ripen about two weeks earlier than Latham, but continue to bear through the Latham season! Fruit holds up to a uniformly large size to the last picking, as later berries are borne on long, new shoots, full of pep. Fruit as large as Latham. Fully as fine for canning and shipping.

Tested by the N. J. Expt. Station and found to be supreme in hardiness and resistance to disease. Six-year testing proves SUNRISE is worthy of a place in your garden or field. **ORDER TODAY—PLANT THIS SPRING. Supply limited.**

GIANT CULTIVATED BLUEBERRIES

At last you can grow giant-size cultivated Blueberries right in your own garden or field, on dry land. Mix a little peat moss with the soil and keep it acid, and you'll be amazed at the lovely bushes and delicious berries.

Blueberry bushes look like shrubs. Leaves are thick, dark, glossy-green, coloring to scarlet in fall. Prune to desired shape and height. Blossoms in large clusters look like Lilies-of-the-Valley. See page 43. Berries come in huge clusters, ripening over a long period so that you can have fresh fruit to eat, can, and sell for several weeks. Sweet and mild in flavor, Blueberries can be eaten by everyone. Also extremely profitable as a commercial crop.

Plant Blueberries this spring. Set bushes 5 by 7 feet apart. One planting lasts nearly a lifetime. Plant two or more bushes for pollination. We offer **JERSEY, RANOCAS, RUBEL and HARDING**, which ripen from early to late. (Let us select two varieties suitable for your locality.)

Emlong's SUPREME NEW FRUITS

DELICIOUS for Home Gardens • **PROFITABLE** for Marketing

Sweeter, Bigger, Better Red Lake Currant

This is the big, glossy-red, fine-flavored **hardy** Currant you have been reading about in all the farm magazines. Prof. J. H. Clark, of N. J. Expt. Station says: "Red Lake yields large fruit, in well-filled clusters. It is superior to Fay, Wilda, Perfection and London Market."

Red Lake fruit is pleasantly acid, and affords a lively tonic in the diet. Ideal for jam and jelly making, as it is high in pectin. The bushes are vigorous, upright growers, making it easy to harvest the fruit. **PRICES:** 1-yr. No. 1 BUSHES, each, 35c; 3 for \$1.00; 10 for \$2.65; 25 for \$5.00; 50 for \$8.95; 100 for \$16.95.

(Parcel Post or Express collect.)

IMPORTANT: Currant plants are shipped only to the following states: Michigan, Illinois, Indiana, Kansas, Missouri, Iowa, Nebraska, Oklahoma, North Dakota, South Dakota, Kentucky, Texas, and Colorado.

Salute Emlong's New Top Rank MAJOR BLACKCAP

It bears a full crop of first-class berries when other blackcaps fail. What more could one ask? Grown beside other varieties, it produces larger fruit, better quality fruit, brighter color, and a heavier yield. Major Blackcaps are not just borne on the tips of the canes, but also on side branches, all along the canes, which makes a bigger crop, and keeps the plants bearing over a longer season.

Major is the hardest Blackcap we have grown. It makes erect, vigorous, healthy bushes. Not only a dependable commercial variety, but also a handy home-garden type. Fruit ripens midseason to late. **PLANT MAJOR BLACKCAPS THIS SPRING. ASK FOR FREE PLANTING DIRECTIONS.**

LOGAN—Early

This fine early-ripening Blackcap should be grown with Cumberland and Major, to lengthen the fruiting season. Berries are round, large, glistening black. Juicy and sweet, but of excellent shipping and canning quality. Plants are thrifty growers; hardy, and resistant to drought. Plant $3\frac{1}{2}$ by 7 feet apart in March, April, May. Need no support. ASK FOR FREE SPECIAL PLANTING DIRECTIONS. Priced above.

CUMBERLAND—Late

Long the standard Blackcap, Cumberland establishes the quality by which all others are judged. Ripens midseason to late, producing a tremendously profitable crop. Equally desirable for home use or market, fresh or canned. Berries are big, round, black and "oozing" with flavor. Plants are self-supporting and thrifty growers. Set them $3\frac{1}{2}$ by 7 feet apart. Non-suckering. Plant in March, April, May. ASK FOR FREE SPECIAL PLANTING DIRECTIONS. Priced above.

Bears Twice Every Year! INDIAN SUMMER RED RASPBERRY

Truly a double profit and double satisfaction Red Raspberry! Bears a big crop in early June, and then another in the fall. Every berry a mammoth, long bright red beauty! Unique in shape, and richly different and delicious in flavor. A tremendous yield at both seasons. Hardy, thrifty grower, dependable cropper. Grow Indian Summer with Latham to prolong the picking season. Set plants 3 by 6 feet. Bushes are self-supporting. Plant in March, April, May. ORDER EARLY.

INDIAN SUMMER
RASPBERRIES

Greatest of All Time!

LATHAM RED RASPBERRY

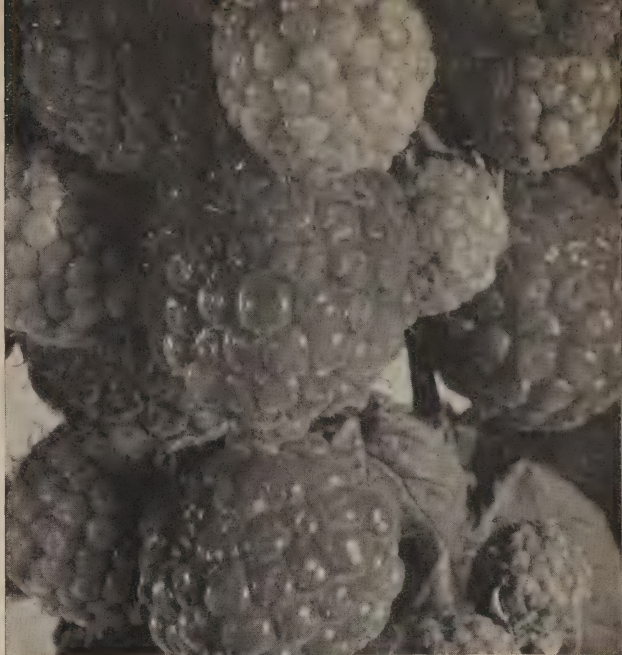

Unquestionably the greatest standard red raspberry of all time! Latham produces immense berries. They are round, plump, free from seediness. Deep glowing red color, do not fade. Delightfully rich flavor, both as a fresh dessert and canned.

Marvelous keeping quality makes Latham the favored shipping variety everywhere. Useful also for freezing. Starts ripening midseason and continues a long time. Often bears some "surprise" berries in the fall on new growth. Set the plants 3 by 6 feet apart. Grow in hills or the hedge-row system. **Free cultural directions upon request.** Plant in spring. Order today!

ALFRED—Early. Most popular blackberry ever grown. Ripens early but bears a long time. Produces an enormous crop of first-quality fruit. Equally fine for home use, canning and market. Mammoth berries, many 1½ to 2 inches long. Glistening black. Almost seedless and coreless. Stands 30 below zero. **PRICED ABOVE.**

ELDORADO—Late. Seems to thrive on poor, thin soil better than most kinds. Planted with Alfred, it lengthens the berry season. Extra firm, sweet, full-flavored, shipping and canning berry. Set plants 3½ by 7 feet. Free directions on request. **PRICED ABOVE.**

EVERBEARING STRAWBERRIES

Bear This Year!

GEMZATA

A triumph in Strawberry breeding! The famous **Scarlet Gem** and **Sweet Wayzata** Everbearers have now been crossed, and GEMZATA is the result. This new ever-bearer is better than either parent, as it has the **rich flavor and color** of Wayzata, combined with the **prolific fruit and runner-making ability** of Gem. Plants set this spring in **March, April, May** start bearing in July or August and continue all fall. Bear two crops next year. Self-pollenizing. **SUPPLY LIMITED. ORDER QUICKLY!** Hand-sorted plants, 25 for \$1.50; 50 for \$2.50; 100 for \$4.50; 250 for \$10.95. ALL POSTPAID.

SCARLET GEM

Everyone can eat Scarlet Gem strawberries, because they are so mild and sweet. Bright flame-red color makes them sell readily. Gem plants thrive on any good, well-drained soil, making a wide fruiting row. They are heavy bearers. Choice dessert berry. Self-pollenizing. **PLANT ONLY IN MARCH, APRIL, MAY. ORDER EARLY.** Bear this fall, next summer and next fall. **PRICES:** 25 plants, 69c; 50 for \$1.10; 100 for \$1.95, postpaid. Also 250 for \$3.95; 500 for \$6.95; 1000 for \$12.95, Express Collect.

MASTODON

The ever-popular extra-large, deep red, varnished-looking strawberry. Full flavored, and very appetizing. An excellent grower and bearer. **PLANT IN MARCH, APRIL, MAY.** Start bearing this year in July or August and bear all FALL, another crop next spring and next fall. Self-pollenizing. **PRICES:** 25 plants, 69c; 50 for \$1.10; 100 for \$1.95; 250 for \$4.25, postpaid.

DUNLAP STRAWBERRY

Dark red, pointed, medium-size berries with the richest flavor of any Strawberry! Borne in great abundance from midseason to late. A favorite for canning and long distance shipping. Stands drought and cold winters better than other varieties. Self-pollenizing. (Not everbearing.) **PLANT IN MARCH, APRIL, MAY, for berries next year.** Price: 50 plants, 75c; 100 for \$1.10, postpaid. Also 250 for \$2.15; 500 for \$3.50; 1000 for \$6.00, by Express Collect.

GEMZATA

CATSKILL

A real bright red Strawberry, outside and inside. Superbly rich fragrance and flavor! You'll enjoy it for fancy desserts, canning or shipping. Berries are extra large, uniformly shaped throughout the ripening season. **Ripens midseason to late.** Self-pollenizing. Favorite kind for freezing while fresh. **PLANT THIS SPRING FOR BERRIES NEXT YEAR.** **PRICES:** 50 plants, 85c; 100 for \$1.25, postpaid. Also 250 for \$2.75; 500 for \$4.50; 1000 for \$7.95, by Express Collect.

DORSETT

Very fresh and appetizing in appearance, these bright flame-red berries, even after being picked for some time. Each berry a huge lump of rich, sweet goodness. Attractively shaped. Firm in flesh and skin, makes a good shipping sort. **RIPENS EARLY.** Self-pollenizing. **PLANT THIS SPRING FOR BERRIES NEXT YEAR.** **PRICES:** 50 plants, 85c; 100 for \$1.25, postpaid. Also 250 for \$2.75; 500 for \$4.50; 1000 for \$7.95, by Express Collect.

CATSKILL BERRIES

Exciting Strawberry News: New Kardinal King

(Trade-Mark)

Again Emlong's have found you a mighty good Strawberry! Kardinal King has been grown here in Berrien County, Michigan, for several years, and thoroughly tested for all the important good points of Strawberries.

MARVELOUS QUALITY

These big, roundish pointed lumps of cardinal sweetness are tops for quality! As pretty as a picture, on the vines and in the boxes, they capture buyers who pay fancy prices for them. A new, tangy richness and sweetness not found in other strawberries. Solid berry all way through, too! You'll grow loads of them for home use, canning, and shipping. Packers want them for freezing and preserving.

LONG FRUITING SEASON

Starting to ripen soon after Premier, Kardinal King continues until the late Strawberry season. Every berry matures to large size and perfect shape, right to the last picking! Bring you two or three times as many berries as many of the older varieties, thus increasing profits greatly. Make large plants, with dark green foliage, and wide fruiting rows. Thrive on any good berry-soil which is well drained.

Plant Kardinal King this spring to have a big yield of fruit next year. Self-pollenizing variety. **ORDER PLANTS EARLY, AS WE HAVE ONLY A FEW THOUSAND TO SPARE THIS YEAR!** Get started now with the finest strawberry we have found in many years! **PRICES OF PLANTS**—while they last: 25 for \$1.50; 50 for \$2.50; 100 for \$4.50; 250 for \$10.95, postpaid.

BLAKEMORE Strawberry

An extra early, bright red berry, favored for large-scale planting and shipping. Highly flavored, and a tremendous yielder even under trying conditions. Stands drought, cold winters. Self-pollenizing. **PLANT THIS SPRING FOR BERRIES NEXT YEAR.** Prices: 50 plants, 75c; 100 for \$1.10, postpaid. Also 250 for \$2.00; 500 for \$3.50; 1000 for \$6.00, Express collect.

EMLONG'S *All-Everbearing* STRAWBERRY GARDEN

Plant this spring. Berries from late summer till winter, and again next summer and fall. 25 GEMZATA, 25 MASTODON, 25 GEM. Postpaid. NO DISCOUNTS.

(Worth \$2.88)

New KARDINAL
KING Berries

PREMIER

World's Greatest Strawberry

For many years the most popular and biggest-selling Strawberry. Leads all in quality and yield. Premier ripens early, getting the first eager Strawberry dollars. Bears over a very long season, producing a tremendous crop every year. Succeeds wherever Strawberries are grown.

Premier berries are bright scarlet-red and do not discolor after picked. Can be trucked long distances. Favored for canning and fancy dessert purposes. Flavor supreme. Plants make a solid fruiting row. Self-pollenizing.

PRICES—PREMIER PLANTS: 50 for 85c; 100 for \$1.25, postpaid. Also 250 for \$2.75; 500 for \$4.50; 1000 for \$7.95, Express collect.

PREMIER Strawberries

NIGHT ROSE—Described at Upper Right

- (1) **PRES. HOOVER.** A riot of colors! Gold, rose, red, in sunrise blend. Fragrant. Large, shapely blooms. Loads of flowers. Strong grower. Hardy.
- (2) **McGREDY'S SCARLET.** Never out of bloom, from June till winter. Last blooms are the reddest! Long, pointed buds. Strong grower.
- (3) **McGREDY'S IVORY.** Simply exquisite in a bouquet with Night! Delicate, shimmering ivory-white. Lots of big, many-petalled blooms.
- (4) **CONDESA DE SASTAGO.** One of the best growers and most consistent bloomers in the garden! **Reversible petals** of gold and orange-red.
- (5) **EDEL.** A tall-growing bush, always loaded with big, full-petalled, pure white flowers. Very dependable.
- (6) **MRS. SAM McGREDY.** No other Rose like it! Gracefully long, pointed buds of pure orange-mandarin. Longest stems for cutting. 15 to 20 blooms in June alone, and more all summer.
- (7) **WESTERN GOLD.** A glittering newcomer from the West. Bright golden yellow. Sweet tea scent.
- (8) **HINRICH GAEDE.** Brightest, deepest orange of any Rose. Stands out like a beacon in the Rose garden.
- (9) **AMI QUINARD.** Deepest black-red petals, thickly coated with glistening silk-velvet. Low-grower, but always full of blooms.
- (10) **TALISMAN.** Ruffled petals of gold, splashed and dashed all over with scarlet and rose... just as if Jack Frost had been painting them.
- (11) **MARGARET McGREDY.** Makes a round, bushy growth, with 15 to 25 big, full brick-red blooms in June. Continues to bloom freely all summer. (Not illustrated.)

New Columnar BARBERRY

An upright growing columnar Green-Leaf Barberry which needs trimming only about once a year. Makes a solid, narrow, formal wall. Leaves color in fall. Loads of red berries. Perfectly hardy and healthy. Can grow it like Boxwood. PRICES: 9 to 12 in., branched, 10 for \$2.00; 25 for \$4.00; 100 for \$14.00. (Plant Pat. No. 110.) (Called Truehedge Columnberry.)

DWARF Blue-Leaf WILLOW

Amazingly beautiful gray-blue foliage makes this plant cherished. Discovered north of the Arctic Circle. Stands any temperature, and wet, soggy soils. NATURALLY DWARF—needs little care. Plant 8 inches apart for hedges, around beds, for borders, etc. PRICES, (*Salix nana purpurea*): 12 to 18 in., branched, 40c each; 10 for \$2.50; 25 for \$4.50; 100 for \$15.00.

POPLAR WALL—10 for \$1.95

An unusual and beautiful living green screen or wall! Set Lombardy Poplars 1 foot apart and cut the tops off straight like a hedge. Makes a solid wall through which animals cannot crawl. Hardy, healthy, thrives on poor soil. Branches from ground up. Requires almost no care. PRICES: 3 to 4 ft., branched: 10 for \$1.95; 20 for \$3.25; 50 for \$6.95; 100 for \$12.50. (10 trees mailable, balance express).

EMLONG'S *Hardy* NUT TREES

An Investment in Food and Ornamental Value

PLANT NUTS FOR NUTRITION! Don't let a threatened meat shortage worry you, for nuts have the same food value as meat, and are much easier to digest! Grow them in your own garden, or plant them as shrubs and shade trees about the grounds. Here are the reliable varieties suggested by Emlong's:

ENGLISH WALNUT

We offer the famous Franquette variety, highly valued because of its large, flavorful kernels, and thin shell. Nuts fall from the shucks on the tree, making them easy to gather for storage. Trees are excellent lawn and shade specimens. Hardy as far north as lower Michigan. 4- to 5-ft. trees, \$2.25 each. Mail or Express.

HAZELNUT TREES, only 75c

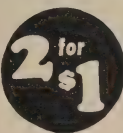

Sometimes called Filberts. These roundish nuts have thin, tender shell. Round, sweet kernels, easily removed, and delicious for many uses. Trees grow rather shrubby, branching from ground up. Fancy leaves. Hardy and young bearers. Like moisture. Plant a group of them in the corner of your lawn. 2- to 3-ft. size, 75c; 3 for \$2.00. Mailable.

Thin Shelled
HAZELNUT
(Filbert)

BLACK WALNUT TREES

Black Walnuts are so easy to grow, and hardy practically everywhere! Richly flavored kernels are useful for many purposes. The trees produce graceful fronds of leaves. Ideal for lawn and shade purposes. High timber value. 3- to 4-ft. branched; 59c each; 2 for \$1.00. 4- to 5-ft. branched; 69c each; 2 for \$1.25. Mail or Express.

Grafted PECAN TREES

Hardy as far north as lower Michigan, these grafted Pecan Trees bear large, thin-shelled, delicious nuts. Make ideal lawn and street trees. (Grafted trees are far superior to the usual seedlings offered by most nurseries.) 4- to 5-ft. branched trees, \$1.50 each. By Express.

"Nut Grove"

1 Black Walnut. 3-4 ft. 6 TREES

1 Hazelnut. 2-3 ft.

1 Butternut. 2-3 ft.

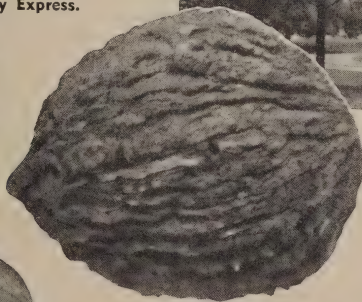

1 Pecan. 4-5 ft.

1 Eng. Walnut. 4-5 ft.

1 Chestnut. 2-3 ft.

BLACK WALNUT
3 to 4 ft. Trees, 2 for \$1.00

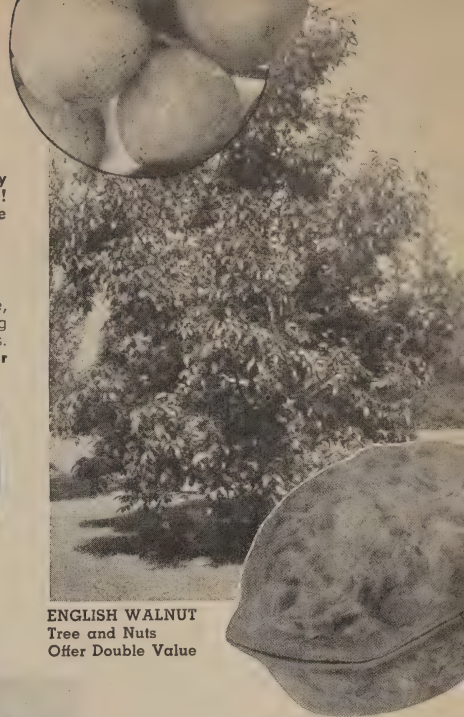

Good Profits from Nuts

Many people make nut-growing a commercial business. Why not use nuts as a source of additional income for yourself?

BLACK WALNUT TREE
Shapely and Useful for Lawn and Street Planting

ENGLISH WALNUT Tree and Nuts Offer Double Value

BUTTERNUT

Dandy Trees, only \$1

Everyone likes these richly flavored nuts! Known as the "white walnut," they are smaller and more elongated than Walnuts. Trees grow quickly and bear young and heavily. Very popular and profitable. 3- to 4-ft. trees, \$1.00 each. Mail or Express.

New and Better!

CHESTNUT

Hardy Chinese Type
(Castanea Mollissima)

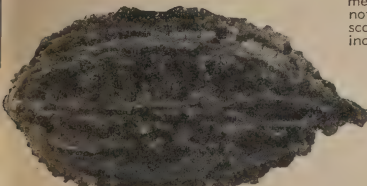

At last a Chestnut that everyone can grow! Thrives freely anywhere if soil is properly fed. Often bears when only 3 to 4 ft. tall! Nuts are extra large, tender, sweet, and highly profitable. Trees are blight-free, and enormous bearers. Clean, ornamental for the lawn. Does not shed leaves until late fall. Grass thrives under these trees! 2- to 3-ft. branched trees, \$2.00 each. NO DISCOUNT. Mailable.

Emlong's SHADE and INCREASE THE VALUE AND

Shade trees undoubtedly furnish the "frame" for the picture your home makes from the road. They also furnish cool shade in the summer, and attract song birds to your yard. A home without attractively arranged shade trees looks bare and bleak. Do not "hide" the house with trees—use them to "frame" it. Emlong's Nursery is headquarters for finest, hardy, northern-grown trees. **SAVE MONEY HERE!**

White Paper BIRCH

Tall growing Birch with white bark and artistic green leaves. Very hardy. Stands extreme moisture and poor soil. **WELL BRANCHED TREES**, by Express: 5 to 6 ft., \$1.50; 6 to 8 ft., \$1.85; 8 to 10 ft., \$2.50.

Sweet Flowered CATALPA

The great Western Catalpa Speciosa, which produces big, heart-shaped leaves. Large clusters of fragrant white flowers and ornamental seed pods. Thrives even in poor, sandy soil and drought areas. **BRANCHED TREES**: 4 to 5 ft., 50c; 5 to 6 ft., 65c; 6 to 8 ft., 85c. By Express.

Wisc. Weeping WILLOW

5 to 6-ft. branched, 3 for \$1.50

A graceful tree for lawn specimens, to plant near pools, lakes, summer homes, etc. Also used for windbreaks. Thrives even on poor, dry soils. Long, narrow green leaves on slender branches which sweep to the ground. **BRANCHED TREES**, by Express: 4 to 5 ft., 45c each; 5 to 6 ft., 55c each; 6 to 8 ft., 65c each; 8 to 10 ft., 85c each.

RED-LEAF FLOWERING PRUNUS NEWPORT

Lovely fairy-like pink blooms grace this small tree in the spring. Shiny leaves open maroon-red and remain a bronzy red all summer and fall. Luxurious contrast when planted with other trees, or in the shrub border. **BRANCHED, BUDDED TREES**, Mailable: 1½ to 2 ft., 39c each; 3 for \$1.00. 2 to 3 ft., 50c each; 3 for \$1.35.

Cut-Leaf Weeping BIRCH

The graceful Cut-Leaf Weeping Birch has delicate green leaves on branches which sweep to the ground. White bark on mature trees. Plant in pairs or groups of three for picturesque effect. Choice lawn specimens. 6 to 8 ft., branched trees, \$2.95 each; 3 for \$7.50.

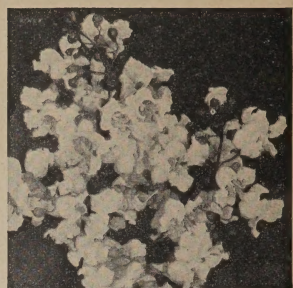

New Double Flowered CORNUS FLORIDA Dogwood

Lovelier and daintier than ever! The popular large, white-flowered Dogwood tree now with **DOUBLE FLOWERS!** See photo at left. Leaves turn red in fall. Red berries in clusters. 2 to 3 ft., branched trees, \$1.50 each. Mailable.

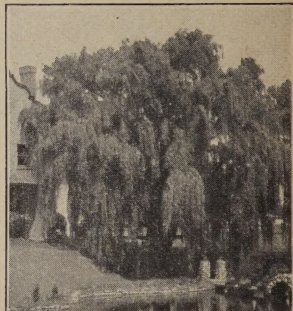

PRUNUS TRILOBA

The charming "Rose Tree of China" which is aglow with double bright pink flowers all spring. Attractive pointed leaves color in the fall. Grows 6 to 8 feet tall. Cherished lawn specimen. **Branched Trees**: 2 to 3 ft., 59c each; 3 to 4 ft., 69c each.
